A hadron production experiment
for the neutrino factory

NuFact'00 Workshop
May 22-26 2000
Monterey, California

M.G. Catanesi
INFN Bari-Italy

European R&D program towards the neutrino factory

- ✓ The WARP experiment at CERN PS
(approved feb. 2000)
- ✓ Measurement of the large-angle scattering of low-momentum muon in liquid hydrogen
- ✓ Study of high-power (MW) targets
- ✓ Study of RF cavities in strong magnetic fields and under strong irradiation
